

BUGWRENCH® is specifically designed and built for utility linemen.

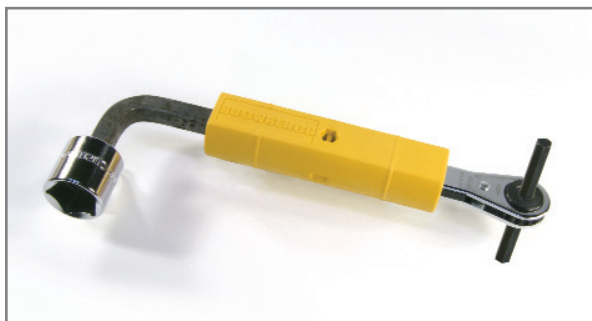

The unique BUGWRENCH combinations - such as 9/16" and 3/4" cannot be found at the local hardware store.

These special combinations allow line workers to carry one tool that will

install hundreds of different connectors. The 5/8" and 9/16" combination is just right when installing or performing maintenance on overhead transformers.

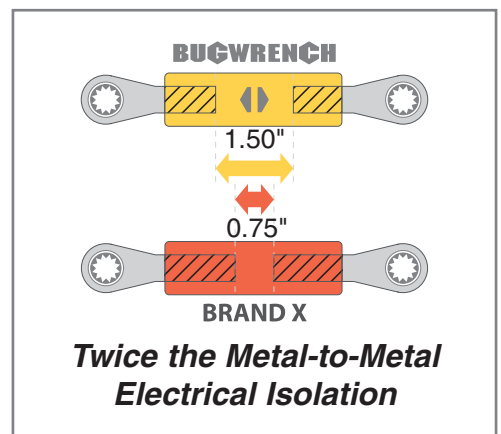

BugWrench comes in a variety of standard fitting combinations.

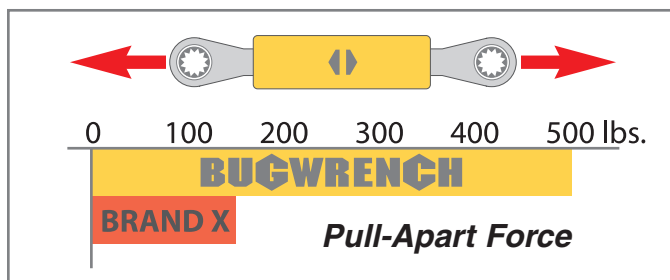

Penta-sockets combined with hex (Allen) wrenches are made for working on pad-mount transformers and secondary pedestals.

The BUGWRENCH handle is formulated of a high strength and high dielectric polymer. All BUGWRENCH tools equipped with the high dielectric handles include the following features:

- A see-through port in the center of the handle to confirm that the two ends are not electrically connected.
- Tool metal-to-metal electrical isolation superior to others.
- Pull-Apart Strength of 3-5 times greater than others.
- High visibility yellow color

Data for the 9/16" x 3/4" model shown above

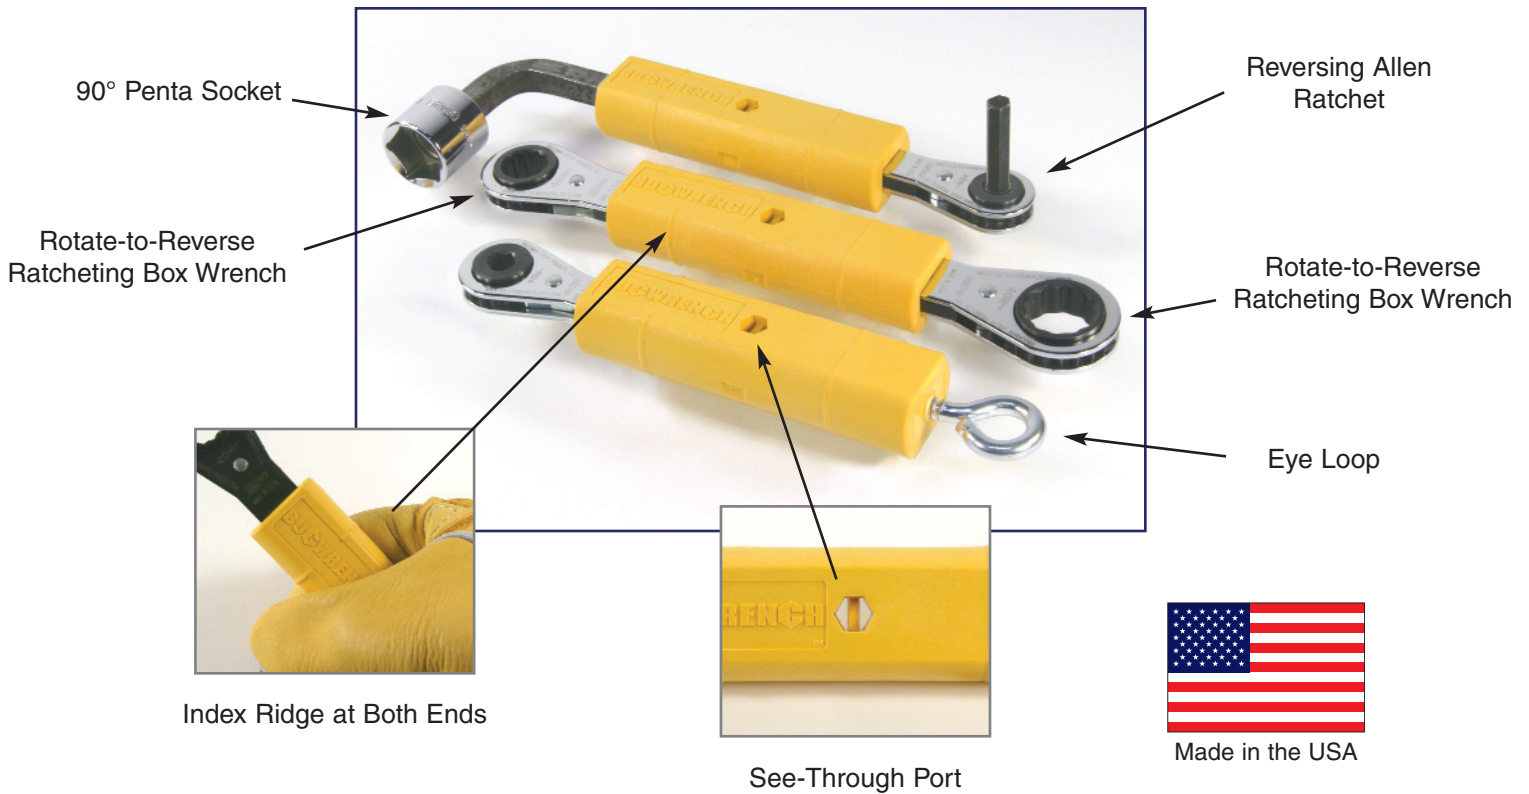

The unique **patent-pending** design and manufacturing process ensures maximum metal-to-metal separation, with unmatched mechanical strength.

Patent Pending

FEATURES

Many combinations of BUGWRENCH tools are available and all share the many quality & safety features.

COMBINATIONS

Catalog Number	End 1 Fitting	End 2 Fitting	Weight lb.
BW-2093	5/16" Allen Ratchet	Eye Loop	0.75
BW-2093P90	5/16" Allen Ratchet	90° Penta Socket	1.00
BW-221	3/8" Ratchet	9/16" Ratchet	0.75
BW-2212	1/2" Ratchet	9/16" Ratchet	0.75
BW-2213AR	3/8" Allen Ratchet	5/16" Allen Ratchet	0.75
BW-223	9/16" Ratchet	3/4" Ratchet	0.75
BW-2237	5/8" Ratchet	3/4" Ratchet	0.75
BW-224	3/4" Ratchet	7/8" Ratchet	1.00
BW-241S	5/16" Reversible Allen Ratchet	Eye Loop	0.75
BW-241P90	5/16" Reversible Allen Ratchet	90° Penta Socket	1.00

* Other styles are available, consult factory.
